Delivery

ABOUT THE PROGRAM

This three-day intensive workshop is designed to strengthen your clinical skills in implant prosthodontics from single implant rehabilitation to full-arch treatment. Through evidence-based concepts and extensive hands-on training, you will gain the confidence to deliver predictable, functional and esthetic outcomes in everyday practice.

HANDS-ON LEARNING OBJECTIVES

Select appropriate prosthetic components for implant restorations.

Perform conventional implant impressions accurately.

Select and torque implant abutments correctly.

Fabricate provisional restorations to sculpt peri-implant soft tissues and create optimal emergence profiles.

Deliver definitive restorations using evidence-based prosthetic protocols.

Recognize and manage common prosthetic complications.

PROGRAM HIGHLIGHTS

PROGRAM STRUCTURE

A comprehensive 3-day journey from single implant rehabilitation to advanced full-arch prosthodontic mastery.

DAY 1 | SINGLE IMPLANT REHABILITATION

Aesthetic Zone Concepts

MORNING SESSION (LECTURE)

- Single Implant Rehabilitation
- Aesthetic Zone Concepts

AFTERNOON HANDS-ON

- ✓ Impression taking (Digital and Analogue)
- ✓ Verification jig preparation & trial (chairside and laboratory)
- ✓ Abutment selection
- ✓ Temporisation
- ✓ Soft tissue emergence profile engineering
- ✓ Prosthetic kit, different components and their uses
- ✓ Complications

DAY 2 | FULL-ARCH PROSTHODONTICS

Digital Workflow & Restorative Protocols

MORNING SESSION (LECTURE)

- Introduction to Full-Arch Prosthetic Concepts
- FP1 / FP2 / FP3 Prostheses
- Prosthetically Driven Implant Placement
- Selection of Restorative Materials
- Treatment Planning

HANDS-ON SESSION

- ✓ Multiunit Abutment selection and placement
- ✓ Impression taking (Digital and Analogue)
- ✓ Error identification and correction
- ✓ Verification jig preparation & trial (chairside and laboratory)
- ✓ Temporisation
- ✓ VD and Jaw Relation
- ✓ Resin trial and Occlusion
- ✓ Prosthetic kit, different components and their uses
- ✓ Complications

DAY 3

SOFT TISSUE MANAGEMENT

From Principles to Clinical Precision

- ✓ Soft Tissue Management
- ✓ Soft Tissue Management
- ✓ Complications on Chairside and Laboratory
- ✓ FAQ & Case Discussion
- ✓ Tips and Tricks

Dr. Ramesh Chowdhary

Pioneer Clinical Prosthodontist & Implantologist

Chief, Branemark Osseointegration Center India

With over three decades of clinical excellence and academic leadership, Dr. Ramesh Chowdhary has trained thousands of dentists across India and internationally. His expertise in implant prosthodontics, evidence-based protocols and prosthetically driven treatment planning has transformed practices and elevated patient outcomes.

WHY LEARN FROM DR. RAMESH CHOWDHARY?

- ✓ World-class clinical experience & thought leadership
- ✓ Founder of Branemark Osseointegration Center India
- ✓ National & international speaker and mentor
- ✓ Practical, evidence-based and outcome-driven teaching
- ✓ Personalized guidance with high mentor accessibility
